

## Inheritance in Interfaces

```
Interface I1 {  
    void fun1();  
}
```

```
Interface I2 extends I1 {  
    void fun2();  
}
```

```
Interface I3 extends I2 {  
    void fun3();  
}
```

→ multilevel inheritance

I1  
↓  
I2  
↓  
I3

## ↳ Multiple Inheritance

```
I1 {
```

```
}
```

```
I2 {
```

```
}
```

```
I3 extends I1, I2 {
```

```
}
```
